Corrigendum_02	<p>* Vendor to specify ** Actuator shall be sized considering max. Design Differential pressure across the valve.</p>	<p>Please note that for sizing the hydraulic actuator, the minimum and maximum supply pressure details are required. If the actuator is to be sized based on differential pressure, kindly reconfirm whether the requirement is for GOOV or direct gas service. Kindly provide details of the pressure available at site, as the power pack is not within Rotork's scope of supply.</p>	<ol style="list-style-type: none"> The design pressure and differential pressure were already mentioned in the data sheet for hydraulic actuator. The actuator type is already mentioned in the data sheet. As the requirement is for a Hydraulic Actuator (Manually Actuated), the line pressure details are not needed.
